

# Beliefs About Early Learners

## WE BELIEVE

Every child brings individual attributes, strengths and experiences to create their path for learning.

Children are naturally curious and they learn through play and active exploration.

Children thrive in a learning community where there are positive, encouraging relationships and connections.

We are responsible for creating space, materials and opportunities to foster children's growth in all areas.

Experience in a nurturing, rich, engaging environment results in children becoming active citizens in their community.

Thriving Learners ∞ Flourishing Communities

Des apprenants épanouis ∞ Des communautés florissantes
